Paper Title
Maverick: Discovering Exceptional Facts from Knowledge Graphs

Track Name
Research Paper First-Round

META-REVIEWER #1

META-REVIEW QUESTIONS

1. Group leader summary

The paper addresses a new and relevant problem, namely discovery of exceptional facts in knowledge graphs. The authors are encouraged to substantially revise their paper to address the issues identified by the three reviewers. In particular, it is necessary to better and earlier define exceptionality, to discuss more related work and to improve on the evaluation.
